

3M Filtrete™

Traditional Air Filters

Get maximum filtration with optimal airflow in your current HVAC system. Unlike fiberglass filters, Filtrete™ Brand filters help protect your heating and cooling system and improve your indoor air quality by cleaning the air as it passes through the filter. Designed with exclusive 3-in-1 technology from 3M, Filtrete™ air filters trap unwanted air particles while letting cleaner air flow through.

Smart Air Filters

Filtrete™ Smart Air Filters help take guesswork out of knowing when it's the right time to make a change. Simply connect your filter to your mobile device via Bluetooth® and bring your home's air filtration system into the 21st century with active filter life tracking, environmental air quality info, tips for improving your air, and easy filter replacement ordering — it's all in one convenient app.

Reasons to try a Filtrete™ Smart Air Filter

Filter Life

Filtrete™ Smart Air Filters are outfitted with a sensor that helps monitor air flow and usage – not just time – letting you know when it's right to make a change.

Outdoor Air Quality

The Filtrete™ Smart App can display outdoor air quality information for multiple locations, so you can monitor your air quality anytime, anywhere.

Trends, Tips & Alerts

Filtrete™ Smart App notifications keep you informed about your air filter life and provide active tips for helping to improve the air quality in your home.

Replacement Made Easy

The Filtrete™ Smart App keeps track of your specific filter type and size and makes it easy to order replacement filters.
